Django

Django was invented to meet fast-moving newsroom deadlines, while satisfying the tough requirements of experienced Web developers.

Why Django?

With Django, you can take Web applications from concept to launch in a matter of hours. Django takes care of much of the hassle of Web development, so you can focus on writing your app without needing to reinvent the wheel. It's free and open source.

⚡ Ridiculously fast.

Django was designed to help developers take applications from concept to completion as quickly as possible.

🔒 Reassuringly secure.

Django takes security seriously and helps developers avoid many common security mistakes, such as SQL injection, cross-site scripting, cross-site request forgery and clickjacking. Its user authentication system provides a secure way to manage user accounts and passwords.
